Seminário por Dr Stefan Göbel

Head of the Digital Storytelling department at ZGDV Darmstadt

"Storytelling based Edutainment Applications"

dias 28/29 de Julho, 2005 - Campus de Azurém

Dr. Stefan Göbel received a diploma in computer science at the Technical University of Darmstadt. The topic of his graduation deals with graphic-interactive access to geospatial data archives. Since July, 2002 he is head of the Digital Storytelling department at ZGDV Darmstadt e.V. Here, he is the project leader of numerous activities and projects within the research field of Interactive Digital Storytelling and edutainment applications. Since 2003 he chairs the international conference 'Technologies in Interactive Digital Storytelling and Entertainment' (TIDSE) and the Forum for Knowledge Media Design (KMD-Forum) as speaker. In 2005 he chaired the GameDays 2005 in Darmstadt.

The presentation "Storytelling based Edutainment Applications" will provide an overview of the basic understanding and interpretation (by the Storytelling group at ZGDV Darmstadt) of Interactive, Digital Storytelling and will describe current projects and 'trendy issues' - both research and market oriented. Based on that introductive presentation (~1h), students and interested people are invited to join an interactive workshop where participants can discuss specific storytelling topics, e.g. authoring tools, story models, story engines or storytelling based edutainment applications, e.g. learning games or interactive installations for museums.
